

**International Conference on Applications of Optimization
Techniques in Engineering – 2012**

ICAOTE – 2012

on
27, 28 September -2012
at
Kodikanal, Tamilnadu, India.

Special Session

Title: Materials Degradation and Surface Engineering

Chairs of the Session: Dr. V.K. BUPESH RAJA, Sathyabama University

Special Session Scope:

This session shall highlight the material degradation in ferrous, non-ferrous alloys, super alloys and modern materials. The material degradation in the form of wear, corrosion etc will be discussed in this session.

Sample topics include (but are not limited to):

- *Corrosion*
- *Wear*
- *Fatigue failure*
- *Failure analysis*
- *Surface engineering*
